

GLASSLINE

THE ACHIEVEMENT OF FRAMELESS ARCHITECTURE

BALARDO *firstglass*
GLASS EDGE GUARD

World's first! **BALARDO** *firstglass* glass edge guard

Perfection in frameless architecture

Dear Sir or Madam,

I am pleased to have this opportunity to present to you the true innovation that is **BALARDO** *firstglass*.

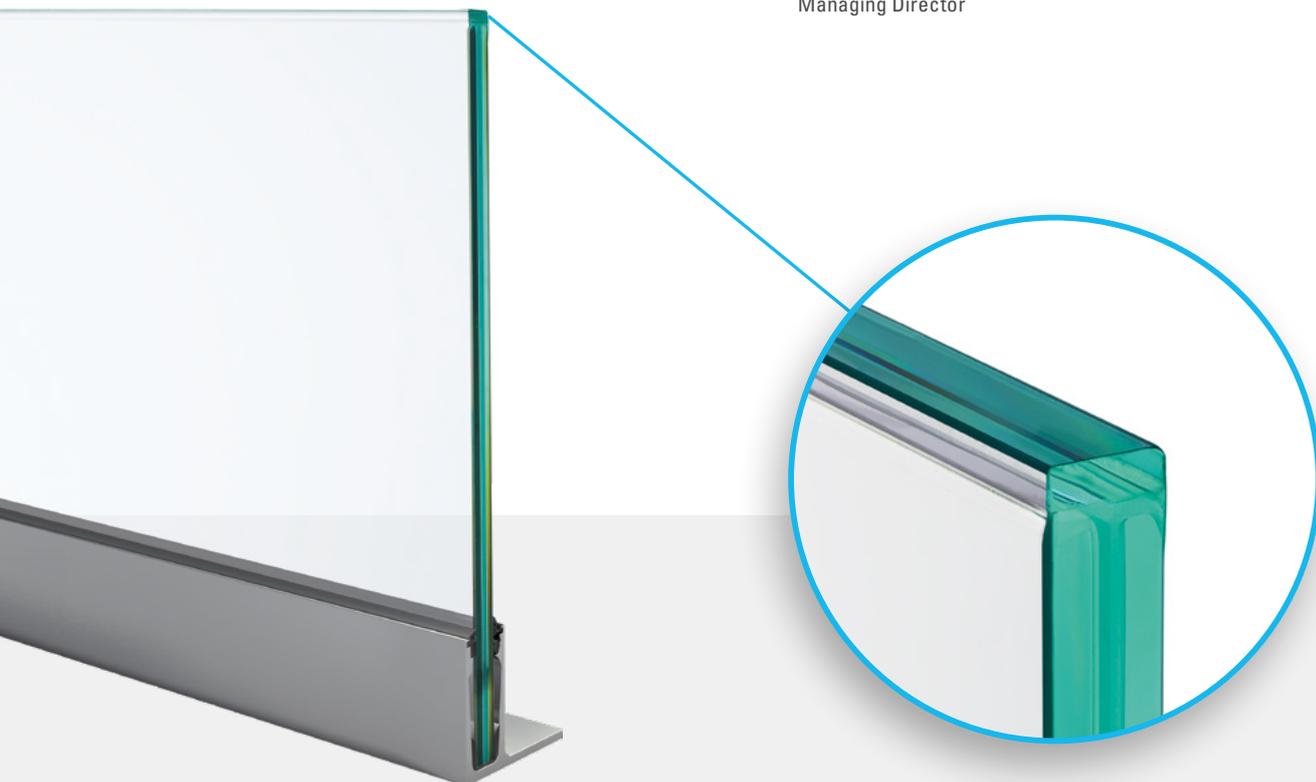

BALARDO *firstglass* is the first glass edge guard and has been exclusively developed for various GLASSLINE systems. We are proud that we have succeeded in once again meeting the demand of many architects and façade designers for perfection in frameless glass architecture, including for all-glass railings. The system is both style perfection and a technical masterpiece when it comes to safety.

In brief: Transparency fully thought out.

Kind regards,

A handwritten signature in blue ink, which appears to read 'Thomas Utsch'.

Thomas Utsch
Managing Director

Pure glass!

BALARDO *firstglass* is a transparent glass edge guard without compromising on appearance; in brief, it is a style highlight. The preassembled BALARDO *firstglass* clear glass edge is redefining transparency in all-glass railing systems!

The advantages for you: No visible metal edge guard profiles! Just the pure glass! Discover new possibilities in frameless glass architecture.

The new BALARDO *firstglass* glass edge has successfully passed all the necessary tests under the highest load and can be used with various GLASSLINE products. It can be used where no load-transferring handrail is required.

Depending on the pane thickness, BALARDO *firstglass* is suitable for:

- ✓ BALARDO *core* for indoor and outdoor areas and for private and public areas
- ✓ BALARDO *hybrid* for indoor and outdoor areas and for private and public areas
- ✓ BALARDO *smart* for private indoor areas
- ✓ BALMERO French balcony

Tested in accordance
with DIN 18008-4
